Solid 4" steel walls and frame are durable and quiet

7-day programmable thermostat saves energy costs

OPTIONAL

Can be completed with full range of furnishings, entrances, and more

OUR GROUND LEVEL PLUS OFFICES

Our ground-level office units are built with non-combustible materials, hurricane-force wind resistance, and significant seismic and snow load tolerance. They come pre-wired with phone jacks and data ports, a seven-day programmable thermostat, 4-inch steel walls, and PVC flooring over cement-bonded foundations for a clean, solid look.

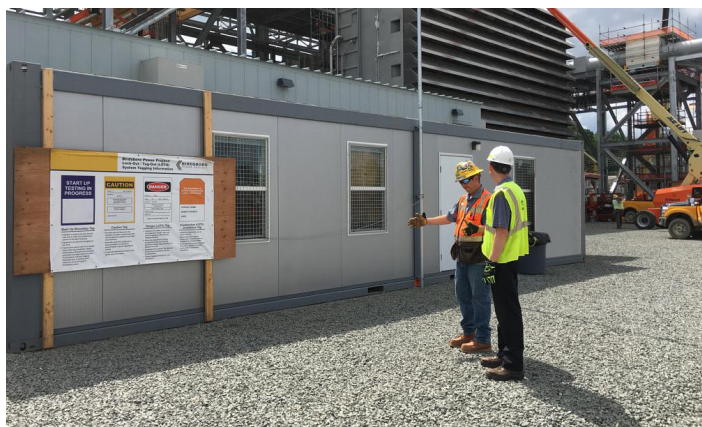

USES

Our 20' length is great for smaller teams (1-5 people), with our 40' length ideal for more medium sized teams (5-10 people)

Our open bay GLO plus format is perfect for team meetings, dedicated workstations, breakrooms with café space, and more.

Full range of furnishings available

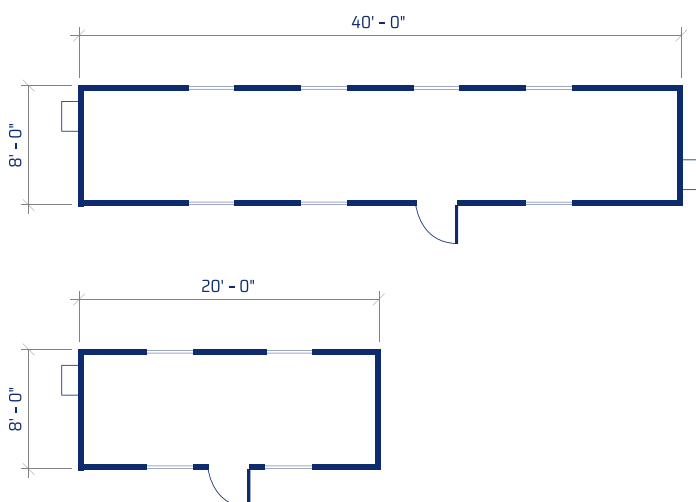

Available in 40' lengths

This modern, secure, and energy-efficient ground-level office is ideal for small crews and tight spaces. Featuring 4" steel walls and frame, it ensures a solid and quiet environment for strategic execution, helping you deliver projects on time and on budget. Fully functional, it's ready for immediate deployment.

Complete your space with a full range of furnishings, entrances, and more

GROUND LEVEL OFFICE PLUS FLOORPLANS

We offer a wide selection of sizes and floorplans that meet a variety of portable office space needs.

All of our ground level offices are made with durable materials that meet national and state building, electrical, mechanical and plumbing codes and are supported by the best customer service in the industry.

We also provide a variety of additional products, including steps, ramps, and awnings, and convenient furniture packages thoughtfully designed to fit your space, saving you time and money, so that your space is outfitted with everything you need, right from the start.
