TWO PLANS. ONE SMARTER WAY TO STAY IN CONTROL.

Select the level of visibility and control that aligns with your operation—Basic Access for critical monitoring or All Access Premium for advanced remote management and reporting.

BASIC ACCESS	ALL ACCESS PREMIUM
✓	24/7 Live Monitoring ✓
✓	Custom Notifications ✓
✓	Global Connectivity ✓
	Two-Way Command Capability ✓
	Access to Historical Data ✓
	Multi-User Access ✓

REAL-TIME MONITORING

Track temperature, humidity, and performance 24/7 with live data

GLOBAL CONNECTIVITY

Access unit data anytime via cellular or satellite to stay connected wherever your units go

PROTECT PRODUCT QUALITY

Maintain precise temperatures to keep products safe, compliant, and profitable—avoiding costly losses

INSTANT ALERTS

Get real-time alerts for power loss, temperature changes, and malfunctions to prevent spoilage

HISTORICAL DATA & REPORTS (PREMIUM)

Download logs to track trends, support audits, and prove compliance

MULTI-USER ACCESS (PREMIUM)

Provide secure, role-based access to boost efficiency and accountability

REMOTE PRECISION (PREMIUM)

Control refrigeration and defrost cycles remotely—no site visit needed

PROTECTING QUALITY STARTS WITH REAL-TIME VISIBILITY

Whether you're monitoring a single unit or managing a fleet, WillScot's advanced telematics system gives you the data, control, and confidence to protect your products and maintain quality. Choose the plan that puts you in charge.
