## Phase Converters

Our phase converters allow you to use three-phase equipment in locations where only single-phase power is available, making it possible to power your climate-controlled storage containers. Please note, these converters will not work with standard residential voltage. 220V-240V is preferred.

SPACE SOLUTIONS | 800.782.1500 | WILLSCOT.COM

Our adaptable phase converters provide the perfect power alternative to three-phase shore power installation.

## COMPACT & EFFICIENT

With premium power efficiency for reduced energy loss and cost savings, these converters ensure ease of installation.

### FEATURES

- 98.7% efficiency for lower energy loss and greater savings
- Weight: 71 lbs.
- Power (HP): 15
- Rated voltage: 230V
- Max output: 52A
- Max input: 90A

## ADAPTABLE & WEATHER-RESISTANT

Designed to endure harsh weather conditions, this enclosure is a durable alternative in areas without available three-phase lines.

Built to withstand harsh conditions with a durable NEMA Type 3R outdoor enclosure

Ideal alternative to utility-installed three-phase power, especially where traditional powerlines are unavailable
